Description

Sur la recette de Meyzieu j'ai tenté de supprimer un element du panier, qui notifie wcs de l'annulation notify('cancelled').

Lingo a tracebacké car timeout lors de l'appel de wcs:

```
Internal Server Error: /lingo/cancel/21/
```

```
Traceback (most recent call last):
```

```

```

Et du côté de wcs la requete a été bien reçue mais abandonnée car pas aboutie au bout de 3 secondes:
