    % (desc, ENVIRONMENT_VARIABLE))
django.core.exceptions.ImproperlyConfigured: Requested setting TEMPLATES, but settings are not con
figured. You must either define the environment
variable DJANGO_SETTINGS_MODULE or call settings.configure() before accessing settings.
```

A priori un soucis lors du trigger-jump qui ne pose pas de settings Django pour les templates

```
wcsctl trigger-jumps --vhost=$site --app-dir=/var/lib/wcs --trigger=solis-suivi-$suivi $suivi.json
```

J'ai coupé le cron, il faut réparer ça.

Révisions associées

Révision c33a029a - 23 septembre 2017 16:01 - Frédéric Péters

misc: change trigger_jumps into a django command (#18730)

Historique

#1 - 15 septembre 2017 11:35 - Frédéric Péters

- Assigné à mis à Frédéric Péters

Faut passer trigger-jumps en commande django; je m'en occupe.

#2 - 15 septembre 2017 12:12 - Frédéric Péters

- Fichier 0001-misc-change-trigger_jumps-into-a-django-command-1873.patch ajouté

- Statut changé de Nouveau à En cours

- Patch proposed changé de Non à Oui

Juste testé manuellement la partie conversion, pas d'exécution locale réelle avec du trigger et de l'envoi de mail.

#3 - 23 septembre 2017 16:14 - Thomas Noël

- Statut changé de En cours à Résolu (à déployer)

Ack, et c'est testé en local avec le cas trigger→mail.

Pushé en vue d'un patch sauvage sur la prod.
