

django-mellon - Bug #20113

Erreur lorsqu'on tente de logger une erreur de récupération de métadonnées

16 novembre 2017 06:18 - Frédéric Péters

| <pre>Traceback: File "/usr/lib/python2.7/dist-packages/django/core/handlers/base.py" in get_response 125. response = middleware_method(request, callback, callback_args, callback _kwargs) File "/usr/lib/python2.7/dist-packages/mellon/middleware.py" in process_view 26. if not any(utils.get_idps()): File "/usr/lib/python2.7/dist-packages/mellon/utils.py" in get_idps 111. for idp in adapter.get_idps(): File "/usr/lib/python2.7/dist-packages/mellon/adapters.py" in get_idps 44. idp['METADATA_URL'], e, i) File "/usr/lib/python2.7/logging/__init__.py" in error 1186. self._log(ERROR, msg, args, **kwargs) File "/usr/lib/python2.7/logging/__init__.py" in _log 1279. self.handle(record) File "/usr/lib/python2.7/logging/__init__.py" in handle 1289. self.callHandlers(record) File "/usr/lib/python2.7/logging/__init__.py" in callHandlers 1329. hdlr.handle(record) File "/usr/lib/python2.7/logging/__init__.py" in handle 757. self.emit(record) File "/usr/lib/python2.7/dist-packages/django/utils/log.py" in emit 115. record.getMessage() File "/usr/lib/python2.7/logging/__init__.py" in getMessage 335. msg = msg % self.args Exception Type: TypeError at / Exception Value: __str__ returned non-string (type Error) ... e SSLError(SSLError(SSLError('bad handshake', Error([('SSL routines', 'SSL3_GET_SERVER_CERTIFIC ATE', 'certificate verify failed')]),)),))</pre> | | | |

Historique

#1 - 16 novembre 2017 21:30 - Benjamin Dauvergne

C'est quelle version de requests sur quoi comme Debian ? Je ne reproduis pas chez moi.

#2 - 16 novembre 2017 21:30 - Benjamin Dauvergne

Et quoi comme python aussi.

#3 - 07 mars 2018 17:01 - Benjamin Dauvergne

- Fichier 0001-prevent-conversion-from-SSLError-to-str-to-fail-fixe.patch ajouté

#4 - 07 mars 2018 17:01 - Benjamin Dauvergne

- Assigné à mis à Benjamin Dauvergne

- Patch proposed changé de Non à Oui

#5 - 12 mars 2018 14:37 - Benjamin Dauvergne

Ça ne sert à rien sur une jessie :

```
In [1]: try: requests.get('https://self-signed.badssl.com/')
...: except Exception as e:
...:     pass
...:
```

```
In [2]: print str(e)
name 'requests' is not defined
```

```
In [3]: import requests
```

```
In [4]: try: requests.get('https://self-signed.badssl.com/')
except Exception as e:
    pass
...:
```

```
In [5]: print str(e)
("bad handshake: Error([('SSL routines', 'SSL3_GET_SERVER_CERTIFICATE', 'certificate verify failed')],),")
```

```
In [6]: print '%s' % e
("bad handshake: Error([('SSL routines', 'SSL3_GET_SERVER_CERTIFICATE', 'certificate verify failed')],),")
```

```
In [7]: print u'%s' % e
("bad handshake: Error([('SSL routines', 'SSL3_GET_SERVER_CERTIFICATE', 'certificate verify failed')],),")
```

```
In [8]: print requests.__version__
2.11.1
```

et sur ma sid:

```
In [4]: try: requests.get('https://self-signed.badssl.com/')
...: except Exception as e:
...:     pass
...:
```

```
In [5]: print e
HTTPSConnectionPool(host='self-signed.badssl.com', port=443): Max retries exceeded with url: / (Caused by SSLError(SSLError("bad handshake: Error([('SSL routines', 'tls_process_server_certificate', 'certificate verify failed')],),"),))
```

```
In [6]: print str(e)
HTTPSConnectionPool(host='self-signed.badssl.com', port=443): Max retries exceeded with url: / (Caused by SSLError(SSLError("bad handshake: Error([('SSL routines', 'tls_process_server_certificate', 'certificate verify failed')],),"),))
```

```
In [7]: print '%s' % e
HTTPSConnectionPool(host='self-signed.badssl.com', port=443): Max retries exceeded with url: / (Caused by SSLError(SSLError("bad handshake: Error([('SSL routines', 'tls_process_server_certificate', 'certificate verify failed')],),"),))
```

```
In [8]: print u'%s' % e
HTTPSConnectionPool(host='self-signed.badssl.com', port=443): Max retries exceeded with url: / (Caused by SSLError(SSLError("bad handshake: Error([('SSL routines', 'tls_process_server_certificate', 'certificate verify failed')],),"),))
```

```
In [9]: requests.__version__
Out[9]: '2.18.4'
</pr>
```

#6 - 12 mars 2018 15:00 - Benjamin Dauvergne

- Version cible mis à 1.2.34

#7 - 13 février 2019 19:48 - Benjamin Dauvergne

- Statut changé de Nouveau à Rejeté

Bon vraiment c'est impossible à reproduire de nos jours, c'est vraiment lié à des versions pourris (sous-class d'exception dont `__str__()` renvoie autre chose qu'une string).
