

Hobo - Bug #34537

migrate_schema cassé

04 juillet 2019 14:17 - Emmanuel Cazenave

Statut:	Rejeté	Début:	04 juillet 2019
Priorité:	Normal	Echéance:	
Assigné à:		% réalisé:	0%
Catégorie:		Temps estimé:	0:00 heure
Version cible:		Planning:	Non
Patch proposed:	Non		
Description			
Toujours pas bon pour #31042 , dans une branche avec ce patch, sur une migration combo, il se passe rien, sur master la migration se fait.			
(C'est quand même un bon gaspillage d'énergie que ces trucs soient pas testés à la mano dans un environnement de dev avant d'être poussés).			

Historique

Migrations for 'maps':
  combo/apps/maps/migrations/0008_auto_20190704_1303.py
    - Alter field icon on maplayer
Migrations for 'data':
  combo/data/migrations/0037_auto_20190704_1303.py
    - Alter field title on page

Je fetch sur combo. Il y a 0006_auto_20190628_1042 à passer.

Avec hobo dans la branche de [#31042](#), combo-manage migrate_schemas fait que dalle, je switche sur master dans hoob (avant que tu n'y pousse [#31042](#)), la migration se fait.

#4 - 04 juillet 2019 15:27 - Emmanuel Cazenave

- Statut changé de Nouveau à Rejeté

Benjamin Dauvergne a écrit (sur jabber) :

le problème est entre la chaise et le clavier parce que clairement chez moi la migration 0006 s'applique

```

git pull / combo-manage migrate_schemas --verbosity=2 elle passe
