Version cible:		Planning:	Non
Patch proposed:	Non		

Description

En local uniquement (pas reproduit sur recette), création puis suppression d'un utilisateur via le manage :

```
Internal Server Error: /manage/users/2/delete/

    raise original_exception
ProgrammingError: relation "auth2_ssl_clientcertificate" does not exist
LINE 1: ...rt", "auth2_ssl_clientcertificate"."user_id" FROM "auth2_ssl...
```

Essayé de debugger mais ça plonge bien profond dans l'ORM.

Je me suis arrêté à `django/db/models/operations.py::813` :

```
ipdb> pprint(self._get_fields_cache[cache_key])
...
<ManyToOneRel: auth2_ssl.clientcertificate>
...
```
