

## Intégrations graphiques Publik - Bug #39459

### Option global pour "box-sizing: border-box"

31 janvier 2020 16:34 - Thomas Jund

<b>Statut:</b>	Fermé	<b>Début:</b>	31 janvier 2020
<b>Priorité:</b>	Normal	<b>Echéance:</b>	
<b>Assigné à:</b>	Thomas Jund	<b>% réalisé:</b>	0%
<b>Catégorie:</b>		<b>Temps estimé:</b>	0:00 heure
<b>Version cible:</b>		<b>Planning:</b>	Non
<b>Patch proposé:</b>	Oui		
<b>Description</b>			
2e thème où je me rends compte qu'il serait pratique de démarrer avec un box modèle en "border-box".			
Je n'ai remarqué aucune incidence sur le core si on bascule le mode de calcul.			
Mais il me semble impossible de forcer le changement à tous les thèmes, étant bien incapable de lister les conséquences.

## Historique

---

### #1 - 31 janvier 2020 16:37 - Frédéric Péters

Je préférerais quand même que ça soit tenté pour tout le monde plutôt qu'avoir une option très technique.

### #2 - 31 janvier 2020 16:51 - Thomas Jund

J'aimerais bien aussi. Mais je ne vois pas du tout comment proposer un patch qui garantisse aucune régression.

### #3 - 31 janvier 2020 16:57 - Frédéric Péters

Ici aussi je peux faire des captures avant/après.

### #4 - 07 février 2020 16:00 - Thomas Jund

- Fichier `0001-scss-add-new-default-box-sizing-var-to-set-default-b.patch` ajouté

- Tracker changé de Support à Bug

- Patch proposé changé de Non à Oui

Je pose ici le patch initialement pensé avec option via sass var.

Les éléments des thèmes impactés seront ceux qui ont fixé le ``width`` ou le ``height`` et qui possèdent également un padding et/ou border. Je vais sonder le code des thèmes pour essayer d'estimer l'ampleur du boulot.

### #5 - 03 avril 2020 15:10 - Thomas Jund

- Statut changé de En cours à Solution proposée

Grosse mise à jour de la branche.

J'ai passé en revue tous les thèmes, supprimé toutes les déclarations "border-box".

Cf branche `wip/39459-border-box`

### #6 - 03 avril 2020 15:14 - Frédéric Péters

En gros, ça passe dans modification aux intégrations graphiques (autre que retirer des déclarations désormais redondantes), modulo quelques rares cas ? i.e. ça pourrait passer sans regarder en détails (atreal,imio,rouen)-publik-themes ?

### #7 - 03 avril 2020 15:39 - Thomas Jund

Au niveau du core, peu de chose à patcher : les bullet du carrousel, le marqueur sur la carte des nearby-form, les messages.

Pour les thèmes de public-base-themes, la majorité des modifs étaient au niveau du header : logo et #top-links et pour détecter ces modifs les captures d'écrans sont efficaces.

Il y a eu quelques régressions à patcher au niveau des footers.

Et le gros du boulot était au niveau des cellules et blocks particuliers des thèmes custom (toodegoo, toulouse, toulouse-metro, grenoble-metro, etc).

J'ai essayé d'être exhaustif mais il faudra resté vigilant sur ces thèmes.

Je n'ai pas encore regardé pour les thèmes imio et atreal. Mais il y a peu de thèmes custom il me semble.

#### #8 - 10 avril 2020 11:54 - Frédéric Péters

- Statut changé de Solution proposée à Solution validée

#### #9 - 10 avril 2020 12:02 - Thomas Jund

- Statut changé de Solution validée à Résolu (à déployer)
