<b>Patch proposé:</b>	Non		
<b>Description</b>			
Avec la montée en django 3.2 on obtient ça, toutes les heures,			
<pre>/etc/cron.hourly/scrutiny: System check identified some issues:  WARNINGS: ?: (admin.W411) 'django.template.context_processors.request' must be enabled in DjangoTemplates (TEMPLATES) in order to use the admin navigation sidebar. mellon.Issuer: (models.W042) Auto-created primary key used when not defining a primary key type, by default 'django.db.models.AutoField'.     HINT: Configure the DEFAULT_AUTO_FIELD setting or the AppConfig.default_auto_field attribute to point to a subclass of AutoField, e.g. 'django.db.models.BigAutoField'. mellon.SessionIndex: (models.W042) Auto-created primary key used when not defining a primary key type, by default 'django.db.models.AutoField'.     HINT: Configure the DEFAULT_AUTO_FIELD setting or the AppConfig.default_auto_field attribute to point to a subclass of AutoField, e.g. 'django.db.models.BigAutoField'. mellon.UserSAMLIdentifier: (models.W042) Auto-created primary key used when not defining a primary key type, by default ... </pre>
